(Registration by mail should be sent to 19 W 21 St., Suite 701, New York, NY 10010)

This comprehensive course will provide the essential foundation information and resources for the evaluation and treatment of cleft related articulation, resonance and feeding disorders. With videos and animations the community speech pathologist will gain an understanding of the evaluation and treatment of compensatory and obligatory speech errors related to cleft palate. The timing of speech therapy and/or surgical intervention will be discussed. Specific therapeutic techniques will be discussed, as well.
